

**The Bath trolley** often called "**the lift – trolley**" by users is meant for patient's transportation in horizontal position.

Adjustable height of the **trolley** makes picking up the patient easy in various situations

The compact chassis allows for swift maneuvers in both the patient's room and the bathroom.

**The Bath trolley** can also be used as "the spare bed" during bedding or for shower purposes.

Equipment:

- mattress
- bolster
- safety belts or leaning rails
- slide mattress for patient's easier pickup
- adjustable trolley height
- four wheels with brake

**The Bath trolley** with the corresponding care bathtub becomes "**the integrated system for care** transport and hydrotherapy of the disabled and chronically ill".
