

**The Bathtub trolley** is designed for "the next to bed" patient's shower but also for patient's transportation to the bathroom and "in bathroom" showers

Thanks to the height adjustable deck picking up the patient becomes easy and allows the personnel to maintain the ergonomical position during hygienic functions.

**The Bathtub trolley** allows for very quick showers, while dismantling the tub makes trolley the perfect transportation tool.

The compact chassis adds the bathtub trolley mobility and allows for swift maneuvers. The tub does not change horizontal position during height adjustments.

**The Bathtub trolley** made of stainless steel will remain in mint condition for years.

Equipment:

- adjustable height – hydraulic or electric mechanism
- leaning sides of the tub
- wheels with brake and directional lock or central brake
- adjustable lean angle of the tub for better water flow
- tub rotated to horizontal position ( optional )
- detachable drain pipe
- mattress
- bolster
- slide mattress for patient's easier pickup
